

FIRE DETECTION AND ALARM SYSTEMS IN BUILDINGS NZS 4512:2021 Get it Right Seminar

FIRE DETECTION AND ALARM SYSTEMS IN BUILDINGS NZS 4512:2021 SEMINAR

This seminar series is driven by the ongoing changes we face as an industry and the importance of selecting the right products and installing and maintaining them correctly to meet performance, design, and standards requirements.

FPANZ is hosting a series of three-quarter day workshops throughout the country to continue its plan of education and information to ensure that the industry is continuing to get the latest information and support.

This seminar is a refresher/repeat of the seminars presented in 2021 when the new Standard was released. Please note that NZS 4512:2021 also now cited by MBIE in the Acceptable Solutions.

NZS 4512:2021 is a substantial revision of the 2010 edition. While the basics remain, technology and practice have marched on. Previous requirements have changed and substantial new provisions have been added. To ensure ongoing competence, it is critical for all industry participants to get up to speed with the changes.

Key changes which will be covered include:

- › Wireless Detection Technologies - new
- › Visual Alerting Devices (VADs) - new
- › Networked systems - new
- › Power Supplies - enhanced requirements
- › Changes to Zones, Sectors, and MCP locations
- › New Commissioning, Inspection, and Certification procedures & forms
- › Expanded Documentation and Reporting requirements
- › Changes to Monthly and Annual Testing
- › Updated Isolation procedures and forms
- › Seismic resistance requirements
- › Additional 'Type 5' system requirements
- › New requirements for Labelling and Marking
- › New Installation and Cabling requirements
- › New requirements for Detector installation
- › New equipment functionality and testing requirements

...And a myriad of other small, but significant changes you need to be aware of...

FPANZ is fortunate to have secured key members of the P4512 revision committee to present these seminars, so they come with in-depth familiarity with all the changes.

Time will be allocated to Q&A, so please review the document (available as a free download) beforehand and bring your questions.
